

**Central
Diesel**

The Engine, Pump & Power Co.

Diesel Technician

Central Diesel builds, services & repairs a wide range of plant equipment & machinery in a diverse range of industries. We have a fully equipped, fully air conditioned workshop with above award wages.

We are seeking a highly skilled, qualified Diesel Technician to join our service team in our Wingfield branch. The successful applicant should be a motivated individual with strong communication skills. Must be able to work well in a team environment & under minimal supervision. Must be experienced with good fault diagnose skills

Tasks will involve:

- General workshop repairs & servicing.
- Field service in the metro & remote areas
- Engine assembly & failure diagnoses
- Fleet vehicle maintenance.

Truck & or forklift license will be an advantage but not essential
Remuneration will be negotiated based on experience

For further information please contact Ingrid Roling on 8349 7733. Submit all resume to ingrid@centraldiesel.com.au or send to 300 Cormack Road, Wingfield SA 5013
