## GL9000

- Two Pole, Silent Type Direct Coupled SinglePhase Diesel Generator
- The compact design and low noise of the GL9000 makes it suitable for a large range of applications while the large fuel tank and exceptional fuel economy extends operating periods between refuelling.
- Compact Design: The unique arrangement of the radiator, engine and the fuel tank allows the unit to be compact compared to other generators in this range
- Reliable & Durable: Kubota's attention to detail results in greater reliability and durability
- Quieter Operation: the larger muffler makes the GL9000 the quietest in the range
- Longer Operation: Combination of a larger fuel tank and the engine's superb fuel economy ensures longer hours of continuous operation
